

SIMPLE ICT APPLICATIONS TO BENEFIT STUDENTS' LEARNING + SAVE TEACHERS A LOT OF TIME!

PROGRAM SCHEDULE

FRIDAY 22 MARCH 2013, 9:30 AM - 4:00 PM

PROGRAM

In these two workshop sessions teachers will be invited to bring in lesson plans of their own and create ICT resources which can be embedded in the plans to improve the teaching learning effectiveness.

In the first half hour of each session, the presenter will lead teachers in investigating how existing websites and applications can help them develop productive learning activities and effective assessment to teach writing and reading (Session 1), and listening and speaking (Session 2). Following some practice with the tools and websites introduced, teachers will then create an ICT learning resource, a classroom activity and an assessment task for their own plan. In the final segment, participants will share and discuss what they have produced.

Session 1 Teachers will practise using tools and websites for word processing in Chinese/Pinyin, concept visualisation (e.g. MindMap), making handy classroom games/activities (e.g. MDBG, ZDT), and data sharing and collecting (e.g. Dropbox, Google Drive).

Session 2 Teachers will learn how to integrate multimedia resources into their lesson plans, using tools and websites for audio and video editing (e.g. Movie maker, iMovie), creating animation from their PowerPoint activities (e.g. iSpring Free with Powerpoint), sharing and designing lessons, and conducting listening and speaking assessments (e.g. Soundcloud).

(Note: applications above are examples only. The ones used in the workshop may differ)

PRESENTER
